

WELCOME TO THE **MATH CLUB**, THE REWARDS PROGRAM FOR **LIVING R3**.

This compensation plan was designed with simplicity in mind. To participate in the commissions generated from the sale of our products, you must remain "Active" with a personal Product Volume (PV) of 100pv. The 100pv needed to become "Active" can come from retail or VIP customer orders or your own personal orders. This allows you to earn commissions on generations 1 & 2 of the Math Club.

Next, become "Qualified". To become "Qualified" for commissions generated on generations 3-7 of the "Math Club", you must have three personally enrolled "Active" Math Club Members on your first generation.

Then go "All in". To achieve "All in" status, help three of your personally enrolled Math Club Members achieve "Qualified" Status. You will then earn commissions on all nine generations of the Math Club.

By offering Club Packs with a value of \$149 for just \$120 to Retail Customers, offering deeper discounts to VIP Customers, and giving the Math Club Member a 35% commission on all Retail Customer orders, and then combining this powerful compensation for acquiring customers with paying on nine generations of commissions, we have created an opportunity with immense potential.
